

IMPORTANT REMINDER ABOUT VARIABLE CREDITS AND HONORS!

Enrollment Services has seen continued enrollment problems due to late changes to variable credits and/or honors requirement designations. We are therefore reminding you to review your pages and make ALL final credit and honors changes **before** enrollment begins.

Please do the following:

- 1) Verify that all sections of your variable credits courses reflect the correct number of credits for which students should be enrolling. Credit values must be accurate **before** students enroll.
- 2) Review all honors information for courses to ensure they are properly designated as HIA, HOP or HON. These designations must be placed on the appropriate class association **before** students enroll.

Curricular Services will not be able to process your variable credit or honors changes after there is student enrollment in a course section. Please ensure that you thoroughly review and update this information prior to the enrollment period.
